Research Letters

Development of a rodent lung macrophage chromosome aberration assay (MTRL 096)
by W.W. Au, P. Bibbins, J.B. Ward Jr. and M.S. Legator (U.S.A.) 1

Fecapentaenes and their precursors throughout the bowel — Results of an autopsy study (MTRL 097)
by M.H. Schiffman, P. Bitterman, A.L. Viciana, C. Schairer, L. Russell, R.L. Van Tassell and T.D. Wilkins (U.S.A.) 9

A sensitive assay for 6-thioguanine-resistant lymphocytes (MTRL 098)
by A. Norman, J.C. Mitchell and K.S. Iwamoto (U.S.A.) 17

Effects of cytidine analogs on methylation of DNA and retrovirus induction (MTRL 099)
by R.J. Rascati (U.S.A.) 21

Strand breakage in DNA by silicic acid (MTRL 0100)
by S.G. Khan, R.Y. Rizvi, S.M. Hadi and Q. Rahman (India) 27

The mutagenic activity of chlorpromazine (MTRL 0101)
by E.E. Obaseiki-Ebor and J.O. Akerele (Nigeria) 33

Harman and norharman induce SOS responses and frameshift mutations in bacteria (MTRL 0102)
by Y. Oda, S.-i. Nakamura and I. Oki (Japan) 39

Interaction between cigarette smoke condensate and radiation for the induction of genotoxic effects in yeast (MTRL 0103)
by N.S. Narayanan and B.S. Rao (India) 45

Metabolic fate of N_1-methyladenine in yeast auxotrophic to adenine (MTRL 0104)
by M.S.S. Murthy and V.V. Deorukhakar (India) 51

Cytogenetic effects of Cuman L, a dithiocarbamate fungicide (MTRL 0105)
by K.C. Hemavathy and N.B. Krishnamurthy (India) 57

Benzene and the genotoxicity of its metabolites
I. Transplacental activity in mouse fetuses and in their dams (MTRL 0106)
by R. Ciranni, R. Barale, A. Marrazzini and N. Loprieno (Italy) 61

Mutagenicity of gossypol analyzed by induction of meiotic micronuclei in vitro (MTRL 0109)
by L. De-yu, J. Lähdetie and M. Parvinen (People's Republic of China, Finland) 69

The influence of chronic *N*-methyl-*N'*-nitro-*N*-nitrosoguanidine pre-treatments on mutagenic response and O^6-methylguanine-DNA methyltransferase activity in V79 Chinese hamster cells (MTRL 0110)
by L. Mariani, R. Bertini, R. Fiorio, P. Gervasi and L. Citti (Italy) 73

Radiation sensitivity and DNA repair in *Caenorhabditis elegans* strains with different mean life spans (MTRL 0107)
by P.S. Hartman, V.J. Simpson, T. Johnson and D. Mitchell (U.S.A.) 77

Effects of ethidium bromide and nalidixic acid pretreatment on the induction of chromatid aberrations by TEM and maleic hydrazide in *Vicia faba* main root meristems (MTRL 0108)
by A. Michaelis, R. Rieger and H. Nicoloff (G.D.R.) 83

Alterations in levels of 5'-adenyl dinucleotides following DNA damage in normal human fibroblasts and fibroblasts derived from patients with xeroderma pigmentosum (MTRL 0111)
by J.C. Baker and B.N. Ames (U.S.A.) 87

Nitrilotriacetic acid (NTA) does not induce chromosomal damage in mammalian cells either in vitro or in vivo (MTRL 0113)
by A. Montaldi, R. Mariot, M. Zordan, M. Paleologo and A.G. Levis (Italy) 95

Induction of chromatid aberrations by TEM and maleic hydrazide is differently affected by pretreatment of *Vicia faba* root-tip meristems with methyl iodide (MTRL 0112)
by R. Rieger, A. Michaelis, I. Schubert, J. Velemínský, T. Gichner and K.J. Angelis (G.D.R., Czechoslovakia) 101

Protein domain structure influences observed distribution of mutation (MTRL 0114)
by A.J.E. Gordon and B.W. Glickman (Canada) 105

Suppressive effect of novobiocin on the frequency of chromosome-type aberrations induced by ara C in The G_1 phase of human lymphocytes (MTRL 0116)
by K. Kishi (Japan) 109

0165-7992/88/$03.50 © 1988 Elsevier Science Publishers B.V. (Biomedical Division)

UV-induced DNA repair is not detectable in pre-dictyate oocytes of the mouse (MTRL 0117)
by C.L. Guli and D.R. Smyth (Australia) 115
Announcement 121
Research Letters
Plant oil variables and their possible influence in mutagenicity testing (MTRL 0115)
by D.M. Logan and M.F. Salamone (Canada) 123
The potent hepatocarcinogen methapyrilene does not form DNA adducts in livers of Fischer 344 rats (MTRL 0118)
by D.A. Casciano, J.G. Shaddock and G. Talaska (U.S.A.) 129
Transformation depending on intermolecular homologous recombination is stimulated by UV damage in transfected DNA (MTRL 0119)
by R.S. Nairn, R.M. Humphrey and G.M. Adair (U.S.A.) 137
Effect of hyperthermia on the frequency of sister-chromatid exchanges in patients with cancer of cervix uteri (MTRL 0120)
by P.K. Ghosh and R. Ghosh (India) 143
Effect of ascorbic acid prophylaxis on the frequency of chromosome aberrations, urine mutagenicity and nucleolus test in workers occupationally exposed to cytostatic drugs (MTRL 0121)
by P. Rössner, M. Černá, D. Pokorná, V. Hájek and J. Petr (Czechoslovakia) 149
Analysis of the cytogenetic effect in human lymphocytes induced by metabolically activated 1- and 2-methylnaphthalene (MTRL 0122)
by U. Kulka, E. Schmid, R. Huber and M. Bauchinger (F.R.G.) 155
Chromosome and blood marker studies in families of patients affected by xeroderma pigmentosum and trichothiodystrophy (MTRL 0123)
by F. Nuzzo, M. Stefanini, M. Rocchi, A. Casati, R. Colognola, P. Lagomarsini, S. Marinoni and R. Scozzari (Italy) 159
Antimutagenic effect of volatile decomposition products from thermally oxidized linoleate (MTRL 0124)
by K. Aikawa and K. Chikuni (Japan) 163
Instability of Mex^- phenotype in human lymphoblastoid cell lines (MTRL 0125)
by I. Arita, K. Tatsumi, A. Tachibana, M. Toyoda and H. Takebe (Japan) 167
Effects of novobiocin on heat shock protection against chromatid aberration induction by triethylenemelamine (TEM) and maleic hydrazide (MH) in *Vicia faba* (MTRL 0126)
by H. Nicoloff, R. Rieger and A. Michaelis (G.D.R.) 173
Overproduction of single-stranded DNA-binding protein increases UV-induced mutagenesis in *Escherichia coli* (MTRL 0127)
by E. Salaj-Šmic, N. Lerš and Ž. Trgovčević (Yugoslavia) 179
Kinetics of chromosomal aberrations and first mitosis division in human lymphocytes exposed to mitomycin C (MTR 04600)
by I. Ceccherini, I. Sbrana and N. Loprieno (Italy) 183
EDTA affects cytochrome *P*450-dependent biotransformation reaction during incubations for the liver microsomal assay (MTR 08690)
by M. Paolini, F. Tonelli, C. Bauer, G. Bronzetti, C. Corsi and G. Cantelli-Forti (Italy) 189
Mutagenicity testing of seminal fluid: seminal fluid increases the mutagenicity of the precursor mutagen benzo[*a*]pyrene in the presence of S9 mix (MTR 01290)
by G. Nylander Rivrud (Norway) 195
The effect of tissue culture agar on chromosome breakage, sister-chromatid exchanges and clonogenicity in human cells (MTR 01291)
by M.M. Cohen, S. Schwartz, A. Kunska, J. Satish and A. Hamburger (U.S.A.) 201
Butylated hydroxyanisole, butylated hydroxytoluene and *tert.*-butylhydroquinone are not mutagenic in the Salmonella/microsome assay using new tester strains (MTR 01292)
by G.J. Hageman, H. Verhagen and J.C.S. Kleinjans (The Netherlands) 207
1,6-Dinitropyrene causes spindle disturbances and chromosomal damage in V79 Chinese hamster cells (MTR 01293)
by M. Bauchinger, E. Schmid, F.J. Wiebel and E. Roscher (F.R.G.) 213
Induction of sister-chromatid exchanges in *Vicia faba* by arsenic-contaminated drinking water (MTR 01304)
by S. Gómez-Arroyo, A. Hernández-García and R. Villalobos-Pietrini (México) 219
Cytogenetic effects in a group of traffic policemen in Cairo (MTR 01305)
by W.A. Anwar and A.A.M. Kamal (Egypt and U.S.A.) 225
Sister-chromatid exchanges in human lymphocytes exposed to 1-*p*-(3-methyltriazeno)-benzoic and potassium salt (MTR 01306)
by P. Vernole, D. Caporossi, B. Tedeschi, G. Melino, B. Porfirio, E. Bonmassar and B. Nicoletti (Italy) 233
The mutagenic and clastogenic activity of tobacco smoke (MTR 01308)
by R.M. Balansky, P.M. Blagoeva and Z.I. Mircheva (Bulgaria) 237
